5.4	Lower Flammability Limit:	Not determined.		
5.5	Upper Flammability Limit:	Not determined.		
5.6	Hazardous Properties:	None		
5.7	Extinguishing Media:	On large fires use dry chemical, foam or water spray. On small fires use carbon dioxide (CO2), dry chemical or water spray. Water can be used to cool fire exposed containers.		
5.8	Special Fire Fighting Procedures and Equipment:	Self-contained breathing apparatus and protective clothing should be worn in fight large fires involving chemicals. Determine the need to evacuate or isolate the area according to your local emergency plan. Use water spray to keep fire exposed containers cool.		
5.9	Hazardous Combustion Products:	Silicon dioxide. Carbon oxides and traces of incompletely burned carbon compounds. Metal oxides. Sulfur oxides. Nitrogen oxides. Formaldehyde.		
5.10	Unsuitable Extinguishing Media:	None established.		
6. AC	CCIDENTAL RELEASE M	EASURES		
6.1	Personal Precaution:	Avoid eye contact. Do not take internally.		
6.2	Environmental Precautions:	Prevent from spreading or entering into drains, ditches or rivers by using sand, earth or other appropriate barriers.		
6.3	Methods for Cleaning up:	Determine whether to evacuate or isolate the area according to your local emergency plan. Observe all personal protective equipment recommendations described in this MSDS. If diked material can be pumped, store recovered material in appropriate container. Clean up remaining materials from spill with suitable absorbant. Clean area as appropriate since some silicone materials, even in small quantities, may present a slip hazard. Final cleaning may require use of steam, solvents or detergents. Dispose of saturated absorbant or cleaning materials appropriately, since spontaneous heating may occur. Laws and regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which laws and regulations are applicable.		
7 HA	ANDLING AND STORAGE			
7.1	Handling:	Use with adequate ventilation. Avoid eye contact. Do not take internally. Exercise good		
,	Handling.	industrial hygiene practice. Wash after handling, especially before eating, drinking or smoking		
7.2	Storage Conditions:	Use reasonable care and store away from oxidizing materials.		
7.3	Unsuitable Packaging	None established		
	Materials:			
8. EX	XPOSURE CONTROLS/PE	RSONAL PROTECTION		
8.1	Industrial Hygiene Standards			
	<u>Ingredients</u> None known.	CAS No. Exposure Limits		
8.2	Engineering Controls:			
	Local Ventilation:	Recommended.		
	General Ventilation:	Recommended.		
8.3	Personal Protective Equipment for Routine Handling			
	Respiratory protection:	Use respiratory protection unless adequate local exhaust ventilation is provided or air sampling data show exposures are within recommended exposure guidelines. Industrial Hygiene Personnel can assist in judging the adequacy of existing engineering controls.		
	Suitable Respirator:	Organic Vapor/Dust/Mist Type.		
	Eye protection:	Use chemical worker's goggles.		
	Hand protection:	Chemical protecctive gloves should be worn.		
	Skin protection:	Washing at mealtime and end of shift .Contaminated clothing and shoes should be removed as soon as practical and thoughly cleaned before reuse.Chemical protective gloves are		
		recommended.		
	Hygiene Measures:	Exercise good industrial hygiene practice. Wash after handling, especially before eating, drinking or smoking.

	Respiratory protection:	No respiratory protection should be needed.	
	Eye protection:	Safety glasses/goggles should be worn if there is a danger of splashes to the eyes.	
	Skin protection:	Washing at mealtime and end of shift. Contaminated clothing and shoes should be removed	
		as soon as practical and thoughly cleaned before reuse. Chemical protective gloves are recommended.	
	Precautionary Measures:	Avoid skin and eye contact. Avoid breathing vapor, mistor fumes. Keep container closed. Do not take internally. Use reasonable care.	
9. PH	HYSICAL AND CHEMICA	L PROPERTIES	
9.1	Physical Form:	Liquid	
9.2	Color:	Colorless clear	
9.3	Odor:	Amine-like odor	
9.4	Flash Point:	>100°C(Closed Cup)	
9.5	Explosive properties:	No	
9.6	Oxidizing properties:	No	
9.7	Specific Gravity:	0.98	
9.8	Viscosity $(25^{\circ}C \text{ mpa} \cdot \text{s})$:	300000-800000	
9.9	Molecular Weight:	No

	STABILITY AND REACTI		
10.1	Stability:	Stable.	
10.2	Reactivity:		
10.2	Conditions to Avoid:	None.	
	Materials to Avoid:	Oxidizing material can cause a reaction.	
	Hazardous Decomposition	Silicon dioxide. Carbon oxides and traces of incompletely burned carbon compounds. Meta	
	Products:	oxides. Sulfur oxides. Nitrogen oxides. Formaldehyde.	
	Hazardous Polymerization:	Hazardous polymerization will not occur.	
11 T	TOXICOLOGICAL INFORM	· ·	
$\frac{11.1}{11.1}$	Possible Health Effects:	Refer to Section 3.4	
11.2	Sensitizing Effects:	None know.	
11.3	Mutagenic Effects:	None know.	
11.4	Reproductive Effects:	None know.	
11.5	Carcinogenic Effects:	None know.	
11.6	Other Health Hazard	None know applicable information.	
11.0	Information:	Note know appreade information.	
12 F	ECOLOGICAL INFORMAT	TION	
12. L 12.1	Environmental Fate and	Siloxanes are removed from water by sedimentation or binding to sewage sludge. In soil,	
	Distribution:	siloxanes are degraded.	
12.2	Environmental Effects:	e e	
-	No adverse effects on		
	aquatic organisms.		
	Bioaccumulation:	No bioaccumulation potential.	
12.3	Fate and Effects in Waste	Removed >90% by binding onto sewage sludge. No adverse effects on bacteria. The	
	Water Treatment Plants:	siloxanes in this product do not contribute to the BOD.	
12.4	Additional Environmental		
	Information:		
	Degradation:	Additional environmental information on the silicone component is available on request.	
13. E	DISPOSAL CONSIDERATI		
10.2	Product Disposal:	Dispose of in accordance with local regulations.	
13.1		Dispose of in accordance with local regulations.	
13.1	Packaging Disposal:		
13.1 13.2	Packaging Disposal: TRANSPORT INFORMATI
